

BAG IN BOX FILLER, BBF6

The bag-in-box filler BBF6 is a semiautomatic filling machine.

The BBF6 weighing system, by which the bag contents are determined, can be calibrated. With this machine you are able to fill 3 l-, 5 l-, 10 l- and optional 20 l-bags. This machine suits for hot filling up to approx. 80 °C.

Operating:

- Insert bag (by hand)

- Open the bag fastener (by hand)
- Press start key
- The bag is filled with the filling automatic
- Close the bag (by hand)

Specifications:

- Electrical connection: 230 V AC 50 Hz
- Electrical Output: 150 W
- Connector: CEE7 plug
- Mains cable: approx. 2 m
- Fusing: 16 A
- Compressed air: 6 bar
- Juice inlet: NW 25
- Buffer tank capacity: approx. 40 liter
- Filling performance /h: approx. 120 pcs./3l approx. 100 pcs./5l approx. 75 pcs./10l
- Length: 650 mm
- Width: 650 mm
- Height: 1350 mm
- Weight: 60 kg
