

BELT TABLE DELTA TBE

BELT TABLE DELTA TBE

The belt sorting table enables the grapes transfer downstream the reception line. The number of sorters changes according to the table length.

The objective of the belt table is the following :

- to spread out the grapes to make the manual sorting easier,
- to steadily feed up the equipment upstream the reception line (destemmer, crusher, pump...).

Technical characteristics :

Width: 600 / 800 / 1000

Length : 3.5 m = 6 sorters /4.5 m = 8 sorters /5.5 m = 10 sorters /6.5 m = 12 sorter
