

## BULK BIN TIPPER

**Gross price:**  
**35 010 €**

Net price:  
28 463 €

The Bulk bin tipper MKLB 1000 is a device suitable for lifting and emptying crates used in agriculture. It may be stopped by the operator at any lifting or lowering position to ensure the economic transfer of materials. The machine will hold such position reliably. The material flow can be regulated by the angle of tilting. Steplessly adjustable tilt angle, with 4 pcs vibration-free feet. Requires minimal maintenance.

- hydraulic lifting system
- variable box size
- can be stopped in any tilt position

### Technical data Performance
