

## CIP STATION

### MOBILE CIP UNIT (CLEANING IN PLACE)

The mobile unit for Cleaning In Place (CIP) is equally applicable for small and big wineries. It gives possibilities for preparation of the cleaning solvents needed for cleaning in place of your tanks or pipelines. It is equipped with electrical heating and centrifugal pump, controlled by a control panel. The unit is independent and easily movable.

#### Basic completion:

- Upper manholes
- Air vents
- Level indicators
- Nozzle for thermoprobe
- Electrical Heater
- Centrifugal Pump
- Piping
- Filter

- Trolley with wheels
- Control panel

## Volume:

- 2 x 0.15m<sup>3</sup>, Ppump=3kW Pheater = 6 kW
- 2 x 0.3m<sup>3</sup> Ppump=3kW Pheater = 6 kW
- 2 x 0.5m<sup>3</sup> Ppump=3kW Pheater = 9 kW
- 2 x 0.8m<sup>3</sup> Ppump=3kW Pheater = 9 kW
