

JUICE COLLECTION TANK WITH A PUMP

Gross price:
15 786 €

Net price:
12 834 €

Collection basin with 1 mm coarse screen. Easy and safe operation thanks to fully automatic impeller pump. Juice collection tank is suitable for all Voran presses.

Thanks to the pump fresh juice can be transported for example to a pasteuriser or buffer tank. The pump is switched on and off automatically by means of a special fluid level sensor, after collecting the right amount of juice in the basin. The pump can also always be started manually by pressing the appropriate button.
