

SHOOT BINDER, EASYFIX

The shoot binder EASYFIX is easy to use, maintain and adjust and works with biodegradable clips. This means that after about 18 months of exposure to the sun, the polypropylene stapling cord can be mechanically removed with a rewiner, saving a significant amount of time. Special attention is paid to the gentle but powerful erection of the foliage, which is gentle on the vines. The built-in cord brake system facilitates the attachment of the cord at the end of the row.
