

SPEIDEL BRAUMEISTER PLUS - 10-LITRE MASH-BOILING KETTLE

Bruttopreis:
10 233 €

Nettopreis:
8 320 €

The new 10-litre Braumeister PLUS is equipped with a cooling jacket and a new control system. Its compact size means that the device can be used in even the smallest kitchens, making this type of Braumeister the ideal tool for occasional, quick brewing as well as for testing specific beers in small quantities.

The new automatic control system brews beer according to your own, individual recipes and guides you through the brewing process. Recipes and software updates can be automatically synchronised with the integrated Wi-Fi. Time and temperature are precisely maintained throughout all stages of brewing. Unlike competing devices, the Braumeister does not have to be stirred constantly. Thanks to the patented malt pipe technology, the wort is gently and conveniently distributed. Nothing can burn and nothing has to be poured during the brewing phases.

New control system with touchscreen, integrated brewing guide and Wi-Fi for software updates and recipe synchronisation.

- Device made of stainless steel.
- Cooling jacket for easy cooling.
- Capacity: 10 l finished beer = approx. 11 l wort
- Max. malt quantity 2.8 kg

Whether you prefer wheat beer, Maerzen or Altbier: all types of beer can be brewed in the Braumeister. You will certainly feel the difference in quality between your own beer and the indistinguishable, mass-produced beers.

Control software:

- Brewing guide

- Accurate temperature measurement
- Helpful information during the brewing process
- Integrated Wi-Fi for software updates and recipe synchronization with MySpeidel
- Integrated raw material database
- Timer function - delayed start of brewing
- Option for additional accessories for automatic cooling

Control hardware:

- Waterproof IP 65
- 5" touch screen
- Temperature sensor
- Additional 24 V and CAN connections for future accessories
- Integrated Wi-Fi and Bluetooth

Technical data

- Weight: 12 kg
- Electric heating element: installed power 1300 W
- Pump: 27 W - adjustable speed
- Power connection: 230 V (fuse min. 10 A)
- Control system: fully automatic brewing control (temperature, time, pump)
- Max. malt quantity: 2.8 kg
- Welded cooling jacket
- Jacket connections 1" x 2 pcs

Dimensions

- Height: 48 cm
- Diameter: 30 cm
- Package dimensions: 60 x 40 x 50 cm (length x width x height)
