

VIBRATING SORTING TABLE DELTA TRV 20/25/35

Vibrating sorting table Delta TRV 20/25/35

The purpose of the vibrating sorting table is:

- to spread out the crop,
- to ensure separation of grapes from juice and herbaceous materials (damaged grapes, petioles, shot berries, etc.),
- to allow regular feeding to the next equipment in the processing line (automatic sorting line, pump, crusher, etc...).

TECHNICAL CHARACTERISTICS

Flow rate of 20 to 25 T/h (depending on grape varieties, condition and grapes nature).

DIMENSIONS :

Length: 2550 mm

Height: 1360 mm

Width: 900 mm (1315 mm overall)
