

WINE AMPHORA 500 LITERS

Sirio ceramic amphorae are suitable for both wine fermentation and maturation. Small size and low weight enable easy transportation thanks to the practical tilting frame that we designed, patented and offered as an accessory.

Technical parameters:

- Capacity: 500 liters
- Height: 136 cm
- Diameter: 98 cm
- Weight: 200 kg
- Material: microporous ceramics
- Wall thickness: 25mm
- Interior/exterior satin finish
- Waterproof cover made of microporous ceramics
- Tightening with stainless steel and bronze quick-release clamps
- Valves to choose from: Din/Macon/Garolla/Triclamp
